About The Program

The **'Encounter with God'** is a weekend programme that enables people to live life in abundance and experience freedom from rejection, curses, and other areas they are struggling with. The teachings help establish a Godly foundation and answer various questions that people have about God.

Through these programmes, we have witnessed many people healed and restored to wholeness through the understanding that comes from experiencing the love of God. This programme caters to people across various denominations and geographic locations.

PERSONAL MINISTRY AND CONFIDENTIALITY

The delegates will have the opportunity to receive personal ministry towards the end of the programme. We ensure that the highest value of confidentiality is maintained with those who are ministering to the delegates.
